Architect's sketch made public by Municipal Court which shows that a whole city block is wanted instead of small plot asked for in Councils. This small plot is shown by the dotted lines in the upper centre of the plan. The sketch was sent to newspapers with the name of the fourth side boundary blocked out as shown, supposedly trout lamb cutiets and peas, an ice, a cup of black coffee, a la-cent cigar and a pint of champagne."-Houston Post.

# PASSING OF ROACH SHIPYARD ENDS ITS TROUBLED HISTORY

Sheriff Sells Plant Which Furnished Many Vessels to United States Navy and Merchant Marine.

"Going, going, gone." These words and the bang of the Sheriff's hammer sounded the death knell today of one of the landmarks that has made the port of Philadelphia internationally famous. The words marked the passing of the shipbuilding plant established more than 40 years ago by John Roach at Chester. It was sold at a Sheriff's sale at 10 o'clock this morning. The sale marked the fifth financial re-

verse the plant, consisting of 20 acres

of land, shipways, machinery and other equipment, has had since its inaugura-

tion in 1872. But it is believed that this famous old shipyard will never egain

come back" as it has done previously. FINANCIAL VICISSITUDES.

John Roach, founder of the company, pened the way for this country to build

tion and blazed the trail for the estab-

lishment of the now all-powerful steel

industry. His financial vicissitudes are history. His plant went into the hands

of a receiver upon four occasions, but always managed to struggle back to a

paying basis. Before Roach took over

shipyard. After Roach's death his son,

John B. Roach, operated the shipyard. It later became the Delaware River Iron

vannah. The Persian, Quantico and

Lexington were built for the latter company. They now ply to and from this

port in the Merchants and Miners

Transportation Company's service. The

Harvard and Yale, Long Island Sound

steamships, and the American and Ha-

waitan, pioneer vessels of the American-waitan, pioneer vessels of the American-Hawaiian Line, were also built upon the shipways sold by the Sheriff today. The City of Savannah, constructed for the Ocean Steamship Company, completed

Ocean Steamship Company, completed seven years ago, was the last big steamship to use these ways.

#### THE WEATHER Official Forecast

WASHINGTON, Sept M. For eastern Pennsylvania and New Jer-sey-Fair tonight and Sunday, with light frost tonight in exposed places; moderate northwest winds.

The Southern storm caused rain yesterday along the middle and south Atlantic coast, but has passed northeastward over the ocean and is apparently at some tance southeast of New England this morning. The skies have cleared over the Atlantic States, and fair weather is fallen slightly at most places east of the Mississippi River, and frost occurred last night in some places in the Lake region and the Ohio Valley. The temperatures are rising in the northern plain States on the advance of a disturbance but is moving in from the far north-

Observations made at 8 a. m., Eastern dime-
